## Safety

Your safety is our primary concern so please read the following tips when using your scaffolding:

- Remember to **BE AWARE** a fall from any height can cause serious injury.
- Avoid using the scaffold in adverse **WEATHER** conditions as the tube and decking will become slippery if wet or icy.
- **LIFT ONLY TO YOUR CAPABILITY**
- Ensure your scaffold is **SECURED** properly before use.
- Watch when erecting scaffolding for **OVERHEAD** hazards (Phone Lines and Power Lines, falling materials etc.)
- Always use properly **SECURED AND FITTED** ladders and/or stairs to access all scaffolding
- Always **VISUALLY CHECK** the scaffold is free from damage before and during use.
- If unsure **SEEK ADVICE** from a certified scaffolder or DoL (Department of Labour).

## Christchurch Branch

**Hi** to all my South Island Customers and Customers though out New Zealand. I hope everybody's still busy even with the slight down turn in the building Sector.

Companies throughout the South Island remain quite buoyant and sales have been steady over the past six months.

I've now taken over John Wielsma role in sales for the South Island and its nice doing the sales trips and putting the face to the voice, great to see so many of our South Island customers using our new Web site, it makes things easier for our customers when ordering new products.

If you would like me to call on you on my sales trip please let me know, I will make sure I definitely call in and see you (put the kettle on).

We have now started making our own Ladder and Plain Decks for all our Scaffold Systems, so our sales team will be in touch in due course.

Hope to catch up with you soon and thank you for your support, all the best for 2009.

Thanks

Paul Gooderham  
General Manager
